Copenhagen Engineer Here rechnical College at Copenhagen came to New York to-day on the Oscar II., of the Scandinavian-American line, to study the East River Bridges, the subway and local methods of rebuilding the elevated roads without interruption to traffic. Another passenger on the Oscar I. was Andreas Knudsen, a Copenhage merchant, who has come here to induce American manufacturers and exporters to send to Scandinavian ports goods for the Scandinavian countries, which Troubles

Citizens Charge It's Below 22 sanization of the Thirtieth and Thir ty-first Wards will be represented.

It is estimated that these two wards are together larger in area and population than the City of Buffalo. The taxpayers will ineist that this company has already, in twenty-five years, made more than a "fair return" on its investment, and the citizens are justly entitled to a uniform rate of 80 cents per thousand feet of gas, the same as obtains in New

A committee was appointed at mass meeting held by the New electrical supplies, second floor; Bols-litrecht League of Improvement Association to represent the various bodies. Members of this committee are locking into the contract held by the Kings County Company with the city for lighting of that section.

Gas and Electric Fixture Company. city for lighting of that section.

As has been stated exclusively in The Evening World, the Department by the city for the new Court House of Water Supply and Electricity has and Civic Centre site, and to-day was withheld payment of the city bilis of this and other companies since last October on the grounds that there have been violations of law and contract in that they are not giving the full 22-candle-power of gas.

According to expert authority the company would not need to use as Bronz, was run over by a motor truck. much oil-gas in manufacturing 'f a lower standard of gas is manufac-Wore Rubber Gloves Until She tured than the designated 22-candlepower-that it might take "an ap preciable amount more to boil the coffee in the morning and that it is just a question of a different form of short measure."

doctor gave her several ointments, none of which were effective. He also advised her to wear rubber gloves (she wore out three pairs). I persuaded 50-cent rate be granted, and that The resolution as framed by the 'the commission order that the quality of the light be improved to at ienst 22-candle-power, as prescribed by law."

An item that will be brought to the attention of the committee will be the present contract which the city holds for street lighting. This contract has been in operation for twenty-five years and expires next year. It has proved one of the most profitable contracts for city lighting in Greater New York. The company capitalized it for \$2,112,000.

John Pinover, President of the effects Park Improvement League, e.ys: "The company has been getting \$28 a year per lamp for twentyfive years. If this present high gas rate is to be continued we are entitled to a new lighting system of

ectricity.
"A franchise for electricity in this section would be worth millions to a company. The consensus of opin-on out here is that the electric light more efficient and is better than the gas street lighting. It is more certain at least. The residents will certainly welcome electricity if they are to be forced to pay \$1 for gas, as a possible by July if the Commis-

ion does not act before."

Another matter to be investigated is the hy-products of this company. There has been little produced in the There has been little produced in the way of evidence as to just how much it made by the gas company in these "side issues" of revenue. Various authorities claim that in the cases of some gas companies these bypoducts bring nearly enough to cover the cost of making the gas, the revenue derived from the consumers being practically "velvet." Some of these by-products are tar, ammonia and oils.

Assemblyman Green, author of the 30-cent uniform gas bill in Albany.

Assemblyman Green, author of the 30-cent uniform gas bill in Albany, which bill has been persistently detected by vested interests, will also be present at the hearing. Mr. Green is of the opinion that a uniform so-cent gas rate must prevail all over Greater New York if there is to be any equitable justice for the consumer.

The Assemblyman says: "The Con-solidated Gas Company sells the

pany would supply one house and snother company would supply the text house, and so one company would charge one house \$1 and the other company would charge the next house \$1.25, the gas coming from the same main. Therefore, this is not the only district that suffers from the company would charge the next house \$1.25, the gas coming from the same main. Budget Committee of Diet Approves Bills to Provide the Needed Money.

TOKIO, Japan, June 1.-The Budget Committee of the House of Representatives has approved a bill to increase Japan's standing army. The measure provides for two more diviions, or about 30,000 men. The army now consists of about 300,000 men. The previous Diet was dissolved by the Emperor in December for declining to support the Ministry's policy

of military development. The Budget Committee also approved a bill providing for three new

DIES UNDER "L" TRAIN.

aldentified One-Armed Man Meet, Death on Third Avenue.

An unidentified, one-armed man was killed by a south-bound Third Avenue "L" train at Twenty-third Street at 2 o'clock this morning. Benjamin Hallett, the motorman, declared the man did not jump from the platform and the police think he either was lying unconscious

think he either was lying unconscious on the tracks or that he secreted himself on the tracks at the edge of the platform for the purpose of committing suicide.

The man had no right arm. He appeared to have been about twenty-seven years old, was five feet seven inches tall and had brown eyes and dark hair. Nothing was found in his pockets except a receipt for \$15, signed by J. Thorner, clothler, at Nos. 4, 5 and 5 Manhattan Avenue, Brooklyn, but not made out in the name of any one as having paid the money
